Kritika Tripathi

Software Engineer | Full-Stack and AI Applications
Lucknow, Uttar Pradesh, India | +91-9517092236 | mahitripathi966@gmail.com
linkedin.com/in/kritika-tripathi | github.com/krtx17

Education

Shri Ramswaroop Memorial University 2023 – June 2027
B.Tech. in Computer Science and Engineering *Lucknow, Uttar Pradesh*

- **Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Computer Networks, AI and Machine Learning, Web Development, Database Management Systems

Professional Experience

Quantaliez June 2026 – Present
Software Engineer Intern *Lucknow, Uttar Pradesh*

- Develop frontend and backend features for AI products in collaboration with cross-functional teams.

Cosmodex June 2026 – Present
AI Full-Stack Developer Intern *Remote*

- Build AI chatbots with workflow automation and third-party API integrations; optimize prompt parsing.

Netcamp Solutions Pvt. Ltd. June 2026 – July 2026
Summer Intern, Networking and Application Development *Ghaziabad, Uttar Pradesh*

- Trained in networking, ethical hacking, Android, and web development; delivered three live projects.

GSSoC 2025 and ELUSOC 2025 2025 – 2026
Open-Source Software Contributor *Remote*

- Contributed code improvements and bug fixes to JavaScript and React.js repositories.

Projects

Thermo Shield AI | Autonomous Thermal Early-Warning System

- Processes satellite data to detect thermal events, model plume drift, and trigger emergency alerts in under three seconds.

SolarSense AI | Solar Intelligence Platform

- Combines clear-sky physics models and agentic AI to distinguish weather-related generation losses from equipment anomalies.

Traxion | Biomechanical Risk Analysis

- Uses YOLO11n-Pose and a Random Forest model for movement analysis; reports 98.8% precision and 99.1% F1 score.

EV Q | Smart EV Expert System | AgentathonX 2026, 3rd Place

- Built a five-agent EV route optimizer that reports 60% lower query-resolution time.

ContriFlow | AI-Powered Repository Analyzer

- Built a GitHub analyzer that scores contributor readiness across 10 checks and generates AI-assisted repository fixes.

Technical Skills

Languages: Java, Python, JavaScript, C, HTML5, CSS3
Frameworks: React.js, Node.js, Express.js, FastAPI, Bootstrap, PyTorch
AI/ML: LLM fine-tuning, RAG, LangChain, multi-agent systems, GraphSAGE, prompt engineering, NLP
APIs and Databases: REST APIs, JSON, JWT, PostgreSQL, MySQL, Firebase
Networking: TCP/IP, OSI model, subnetting, socket programming, HTTP/HTTPS, WebSockets, DNS, DHCP
Tools: Git, GitHub, Docker, Hugging Face Spaces, VS Code

Achievements and Certifications

Awards: SIH 2026 finalist; AgentathonX 2026 third place; Viveka 2026 sixth place; finalist at NHAI, Cognizant, and Elite Her hackathons.
Certifications: Machine Learning (NPTEL, IIT Madras); Ethical Hacking, Android, and Web Development (Netcamp Solutions).
